Innov-is 90E

For your embroidery needs.

Instantly Import patterns from Brother Memory Cards

We've made it easy to import embroidery patterns. Just insert a memory card into the **Innov-is 90E**.

Compact and easy embroidery

The **Innov-is 90E** has a 100mm x 100mm embroidery area. Just set the embroidery unit & frame, select the pattern, and ready to embroider. You can create it easier than ever!

- 100mm x 100mm embroidery area

USB import to connect with PC

Connect your **Innov-is 90E** with PC, and transfer customized embroidery data. Compact body, but big expandability!

- With the optional PE-DESIGN software, you can design your own unique embroidery patterns in a few easy steps. Scan drawings or photos, or use clip art images and transform them into embroidery.

Built In Font styles

Built-in font styles make it easy for you to personalize all your sewing and embroidery projects.

- 5 Fonts
- 3 Sizes

LCD touch screen

Manage all the functions with a simple touch of the easy-to-read LCD display.

On-screen editing

Powerful editing features include layout, pattern rotation in 1 degree increments, mirror imaging and scaling.

Quick-set bobbin

Just drop in a full bobbin and you're ready to go.

The **Innov-is 90E** has a lower bobbin sensor which will warn you when the bobbin is running low.

- Quick set bobbin
- Lower Bobbin Sensor

Compatible with other manufacturers thread

In addition to the Brother thread chart the **Innov-is 90E** recognizes threads from three manufacturers. When your pattern asks for a particular colour thread, just select the name of your manufacturer's thread from the information displayed on the touch screen LCD and the corresponding colour will be displayed.

- Built-in competitor thread charts

Thread sensor for upper thread

The **Innov-is 90E** has an upper thread sensor that warns you when the upper thread is broken or run out.
