# MFC-J415W Wireless Colour Inkjet Multi-Function Centre with Fax and Automatic Document Feeder

Do More with the easy-to-use, feature packed MFC-J415W: incorporating wireless network connectivity, Automatic Document Feeder and a 1.9" colour LCD display.

Produce professional quality documents in-house with a minimum 1.5 picolitre droplet size and up to 6,000dpi resolution print quality. The MFC-J415W also offers impressive print speeds of up to 35 mono and 28 colour pages per minute.

Connect and share the MFC-J415W's Print, Scan, Copy and Fax capabilities across your existing wireless network. The secure, simple to use software enables you to connect the machine quickly and easily.

Scan, copy or fax multiple page documents quickly and easily via the Automatic Document Feeder, or scan and copy bound documents with the high quality flatbed scanner. Save time by scanning documents directly to e-mail, file, OCR or memory card.

The MFC-J415W complies with the ENERGY STAR standard, ensuring low energy consumption, low noise levels and a recycle-friendly design.

All Brother inkjet Multi-Function Centres use an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money.

Return your empty ink cartridges to Brother for recycling and you will be helping to protect the environment. For more information go to [www.brotherearth.com](http://www.brotherearth.com)

To achieve the highest print quality, we recommend using original Brother LC39 ink cartridges together with Brother BP71 Premium Plus photo paper.
