Sewing is fun and

User-friendly design

The NX-200's function buttons are at your fingertips on one convenient, easy to use touch-pad operation panel.

-  Choose a stitch by simply pressing the stitch selector button.
-  Quickly set the width and length of the stitch by using the adjustment sliders.
-  At the conclusion of stitching, secure the ends with the reverse/reinforcement stitch key.
-  When stopping the machine decide whether the needle finishes in the up or down position by using the needle-stop position key.

To make threading easier, the thread spool is located at the front of the machine.

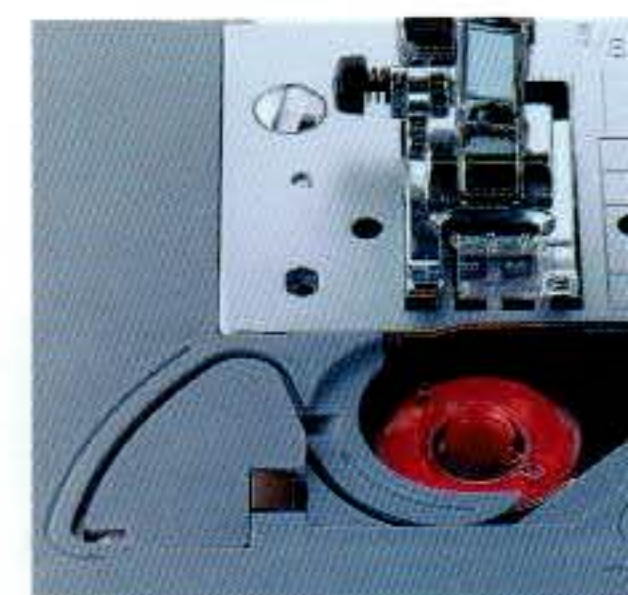

For the easy handling of large articles such as quilts and bed linen, the NX-200 has been designed with an extra-large sewing bed.

A storage space that neatly holds all the NX-200's included accessories.

Functions for easy operations

Specially incorporated functions help to make sewing easy and enjoyable.

Just drop in a full bobbin and sewing immediately.

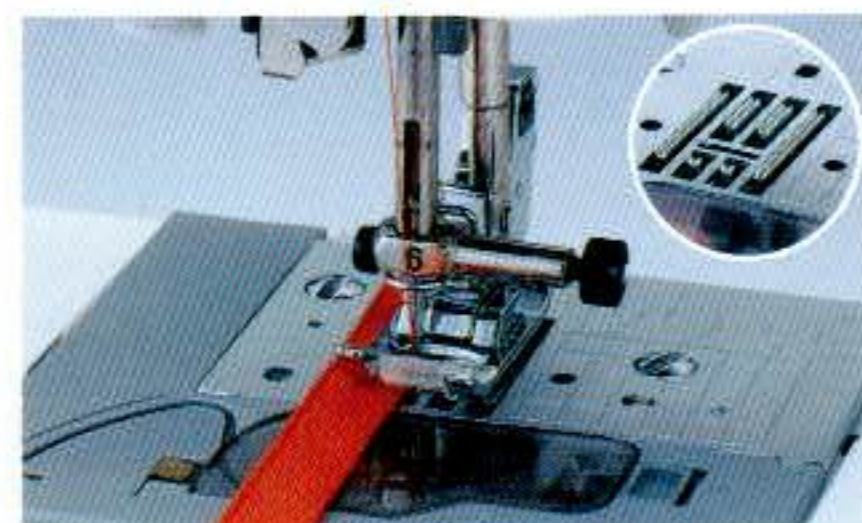

easy with the NX-200

Functions for improved finish quality

Special functions that enable the sewing of secure and attractive seams—even with heavy fabrics like denim.

Six-point feed-dogs

Allows fabrics to be fed smoothly for accurate and effortless creation of seams on any material from light silk to heavy denim.

Presser-foot levelling button

Keeps the presser-foot level for smooth consistent stitching across varying fabric thickness, such as at the start of a seam or when crossing seams.

Presser-foot pressure adjustment

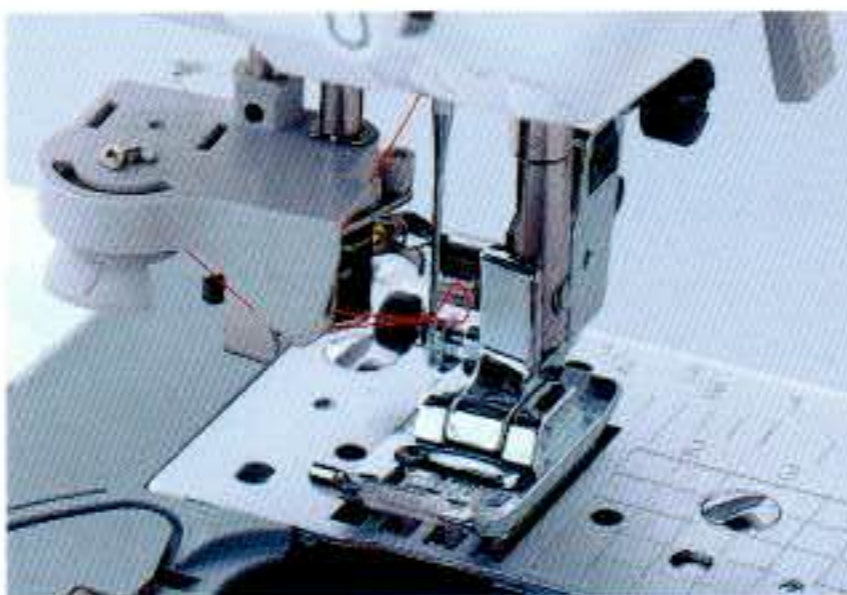

By adjusting the pressure of the presser-foot it is easy to stitch wrinkle-free seams even on the most elastic of material.

F.A.S.T. bobbin winding system

Bobbin winding made easy – wind the thread four or five times around the bobbin, pass it through the guide slot and press the start button. Simple.

F.A.S.T. automatic needle threading system

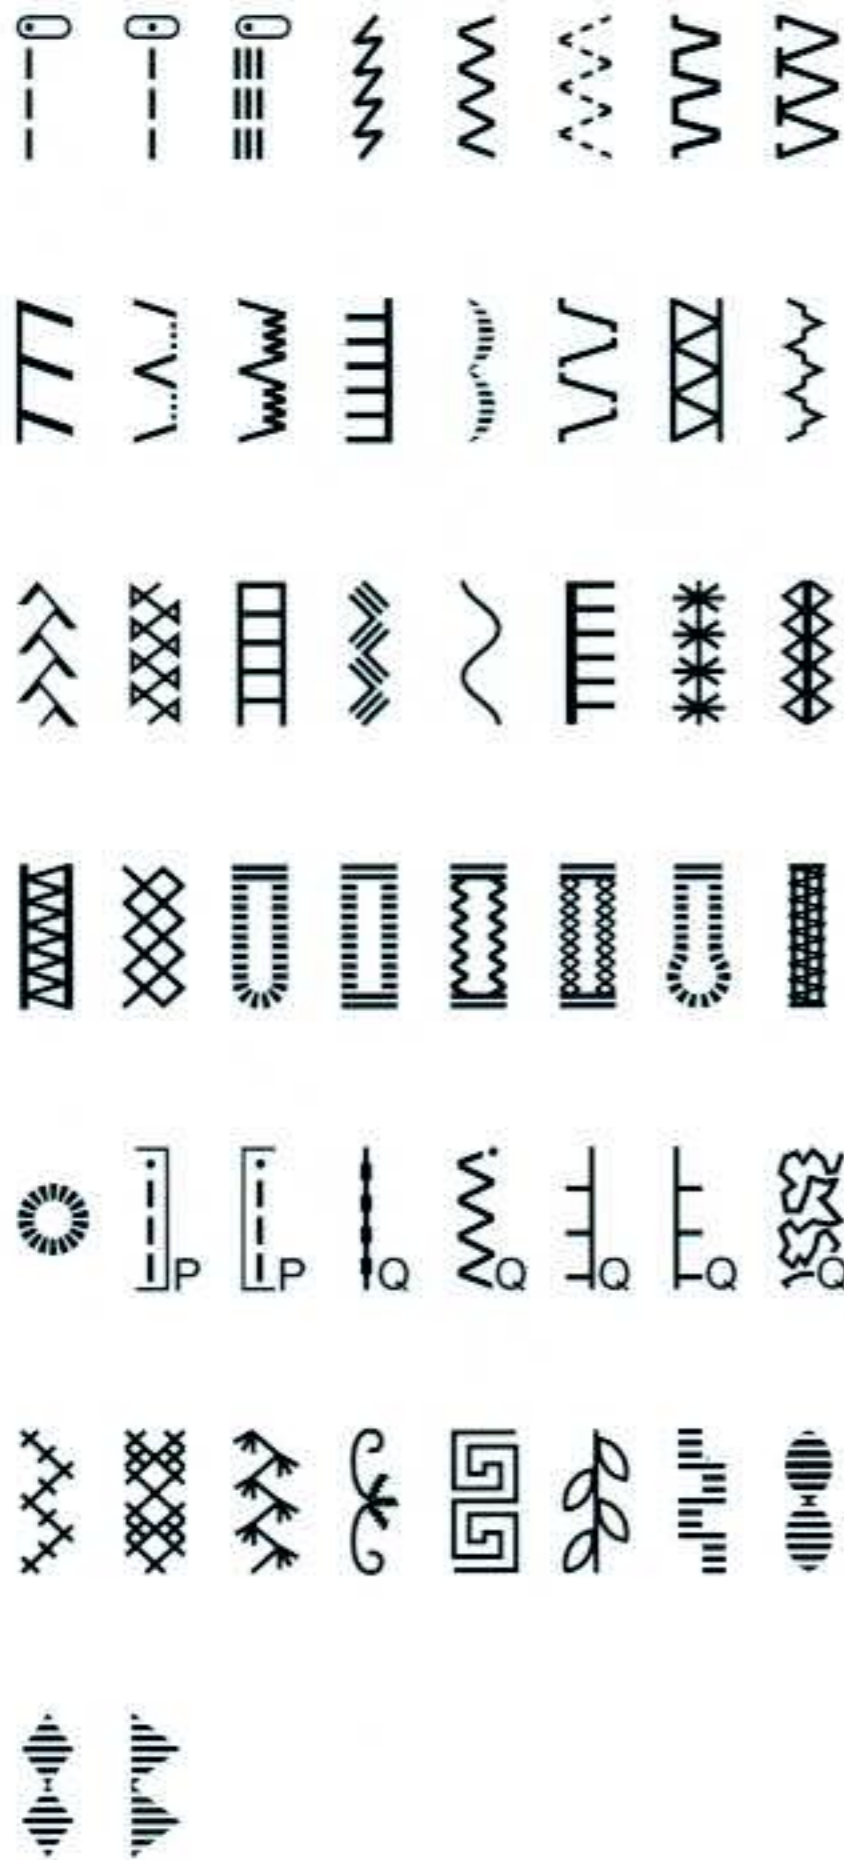

Brother's latest technology makes needle threading quick and easy.

Automatic needle threader

Special functions

One-step automatic buttonholer

An automatic function that produces perfect buttonholes every time.

Drop feed

The feed-dogs can be lowered so that materials can move freely in any direction. Perfect for free-motion quilting.

Needle-stop position control

Select whether the needle should be up or down when the machine stops. Extremely useful when turning material, sewing corners or joining quilt pieces.

Free Arm

A feature designed to make the sewing of tubular items, such as trouser legs and children's clothing, much easier.

Upper thread shutter

A mechanism to ensure that threading the machine is foolproof and safe.

Sliding speed control

By reducing the sewing speed, beginners will be able to work with confidence and accuracy. This feature is also useful when working on intricate detail or curved stitching. For quick or easy stitching, simply increase the speed.

Switch illumination

The start/stop button shows a green light when all the machine adjustments are correctly set.

Dual LED lamp

A convenient light that makes working with dark fabrics easier.

Optional accessories*

Wide table

For easier handling of fabrics when sewing or working with quilting or large projects.

Side cutter

Automatically cuts and overcasts ragged edges. Perfect for finishing seams.

Walking foot

Ensures an even feed action when sewing multiple layers of fabric – or when matching fabric prints.

Quilting foot

A spring action, clear quilting foot marked for easy reference that handles a variety of fabric thicknesses.

*Requires additional purchase.
